OUR **ALL-INCLUSIVE** OFFER **INCLUDES...**

ASSESSMENT CENTRE

We have created the space so you don't have to! Our EPA centres are built to suit the exact requirements of each assessment plan.

END-POINT ASSESSOR

Our Assessors are experts in their field and have passed our checks and rigorous induction and training programme, giving you peace of mind that your apprentices are in good hands.

MATERIALS

We provide all the materials and equipment that apprentices will need to carry out their EPA.

TECHNICIAN

Certain EPA's require a helping hand on the day. Our full time employed team are here to support your apprentices during their practical assessments.

EPA SOFTWARE

We provide the market leading software for managing your apprentices throughout EPA. Our bespoke EPA Pro platform allows you access to mock tests & support material. Prepare, plan and deliver EPA all in one place.

We provide everything for the practical assessments! Hassle free EPA

OUR **EPA ONLY** OFFER **INCLUDES...**

END-POINT ASSESSOR

Our Assessors are experts in their field and have passed our checks and rigorous induction and training programme, giving you peace of mind that your apprentices are in good hands.

EPA SOFTWARE

We provide the market leading software for managing your apprentices throughout EPA. Our bespoke EPA Pro platform allows you access to mock tests & support material. Prepare, plan and deliver EPA all in one place.

Our EPA attends your centre (you provide venue, materials and technician)

EPA ONLY OR ALL-INCLUSIVE EPA?

When considering an EPA only option it is important to understand what is **required from you to facilitate the assessment.** Organising space, buying materials and providing staff can be very costly and difficult to orchestrate, especially in Construction.

Below is a simple comparison table to help decide what is right for the employer, provider and apprentices. Our unique **All-Inclusive** option can offer **significant savings.**

APPRENTICESHIP ASSESSMENTS

#ForConstructionByConstruction

OPTION 1 OR OPTION 2?

Our Foundation Assessment model has been designed to suit the requirements for the Construction industry.
Option 1 will only be permitted for providers who have met the Construction EPA Company Centre Assessment Standards Scrutiny checks.

No matter which option is delivered, there will always be an element of independent practical assessment that is carried out by Construction EPA Company.
